PROFESSIONAL SUMMARY

Results-driven MERN Full Stack Developer with **3+ years** of hands-on experience in designing, developing, and implementing web applications and solutions using the MERN stack (MongoDB, Express.js, React.js, Node.js). Successfully delivered over 15 web projects, enhancing performance by up to 30%.

PROFESSIONAL EXPERIENCE

- ✓ **Primates Development PVT. LTD**
MERN Full Stack Developer
Nov, 2023 - Present
- ✓ **Neosao Services PVT. LTD.**
MERN Full Stack Developer
Dec, 2022 - Nov. 2023
- ✓ **iGap technologies PVT. LTD.**
MERN full stack Developer
June 2021- Dec, 2022

EDUCATION

- ✓ **Jan 2021 - Jun 2021 | iGap Education PVT. LTD.**
Post Graduation Diploma in MERN stack
- ✓ **2017 - 2020 | Shivaji University**
Bachelor Of Engineering

KEY ROLES AND RESPONSIBILITIES

- ✓ **Web Development**
 - Developed and maintained Javascript-based applications, ensuring clean and efficient code.
 - Successfully delivered over 15 web projects, enhancing performance by up to 30%.
- ✓ **Programming Languages and Technologies:**
 - Proficient in Javascript, Typescript including experience with Python.
 - Utilized Javascript frameworks like React Js, Next Js, Angular Js etc. to build robust and scalable applications
- ✓ **Code Reviews and Collaboration**
 - Actively participated in code reviews, providing constructive feedback and promoting code quality.
 - Collaborated with cross-functional teams to deliver successful projects on time and within scope.
- ✓ **Version Control**
 - Utilized Github for version control, maintaining a well-organized code repository.
 - Collaborated with team members to ensure code consistency and version control best practices.

SKILLS AND PROFICIENCIES

- ✓ **Programming Languages -**
JavaScript, Typescript, Python, C, C++, etc.
- ✓ **Databases Technologies -**
MongoDB, mySQL. etc.
- ✓ **Development Framework -**
Reactjs, REST, AngularJs etc.
- ✓ **Tools -**
GitHub, VersionOne, Postman, Jenkins etc.
- ✓ **Development Methodology -**
Waterfall, Kanban, Agile Software Development Methodology, etc.
- ✓ **IDE - VS code**
- ✓ **SOFT SKILLS -**
Communication, Team Work, Problem-solving, creativity

PROJECTS

1. E-commerce Platform :

- Implemented online payment gateway with Razorpay integration.
- Developed email notifications for buyers and admins.
- Created an admin dashboard for managing products.
- Built and managed a catalog of over 500 products.

2. Learning Management System (LMS) :

- Developed role-based login and secure authentication using JWT.
- Integrated video calling and real-time chat using WebRTC and Socket.io.
- Automated tutor scheduling and student booking.
- Managed over 1,000 active users

3. Race Management System (RMS) :

- Created dynamic databases and real-time participant tracking.
- Developed a user-friendly interface with React.js, Redux, and AG Grid.
- Enabled instant updates and progress tracking for participants.
- Managed data for races involving over 2,000 participants.

PROJECTS

4. Digital Wallet Web App :

- Implemented merchant account creation with PAN card verification.
- Integrated services for mobile recharge, bill payments, and AEPS systems.
- Developed video KYC functionality for merchant registration.
- Enabled over 10,000 transactions per month.

5. Vehicle Service Management System :

- Developed secure API endpoints with authorization tokens.
- Implemented role-based login for different user roles.
- Created API endpoints for generating PDF documents.
- Managed service schedules and histories for over 500 vehicles.

6. Social Media App :

- Built user profile management, posts, and feeds.
- Implemented search and discovery features.
- Integrated real-time data communication using Socket.io and WebRTC.
- Supported a community of over 5,000 users.

7. Hospital Management System:

- Developed appointment booking for doctors and lab tests.
- Integrated pharmacy product management with add-to-cart functionality.
- Implemented **Razorpay** payment integration.
- Managed over 1,500 daily transactions and bookings.

8. PG Booking System :

- Developed a platform to book PG accommodations directly based on rent.
- Implemented features for secure user registration and authentication..
- Designed an intuitive interface for browsing and booking PGs.
- Integrated real-time availability checks and booking confirmations.
- Enabled payment processing through secure gateways.
